at _____
STREET ADDRESS CITY PROVINCE

and that these measurements are, to the best of my knowledge and belief, made in accordance with the instructions given.

WITNESS OFFICIAL MEASURER

INSTRUCTIONS FOR MEASURING SHEEP

All measurements must be made with a ¼-inch wide flexible steel tape to the nearest one-eighth of an inch. Enter fractional figures in eighths, without reduction. Official measurements cannot be taken until the horns have air dried for at least 60 days after the animal was killed.

A. Greatest Spread is measured between perpendiculars at a right angle to the centerline of the skull. **Greatest spread does not add into the final score.**

B. Tip to Tip Spread is measured between the tips of the horns. **Tip to tip spread does not add into the final score.**

C. Length of Horn is measured from the lowest point in front on outer curve to a point in line with tip. Do not press tape into depressions. The low point of the outer curve of the horn is considered to be the low point of the frontal portion of the horn, situated above and slightly medial (towards the middle) from the eye socket (not the outside edge). Use a straight edge, perpendicular to the horn axis, to end measurement on "broomed" horns.

D-1. Circumference of Base is measured at a right angle to the axis of the horn. Do not follow irregular edge of horn; the line of measurement must be entirely on horn material.

D-2-3-4. Circumferences of Quarters. Divide Measurement C of longer horn by four. Starting at the base, mark both horns at these quarters (even though the other horn is shorter) and measure circumferences at these marks, with measurements taken at right angles to the horn axis.

DECLARATION

By signing this form:

- I certify that the information I have provided is accurate and correct;
- I certify that this animal was taken in Fair Chase – or is otherwise admissible (e.g. picked up) – as defined in the current Entry Requirements Policy of the Big Game Records Club of British Columbia ("the Club"); and
- I agree that this score sheet and any photos or written material associated with this entry either submitted to the Club or obtained at the time of measuring become the property of the Club to be archived and published in the Club's newsletter, future editions of the *Big Game Records of British Columbia* records book, online social media, or any other Club publications without compensation to the hunter and/or owner.
